

DNSSEC for Beginners

Session Notes

Welcome!

... to the DNSSEC for Beginners Session! We hope that over the next 60 minutes, whatever your knowledge of DNS and DNSSEC you'll find some useful information that you can use to inform you in your decisions around DNS security and deploying DNSSEC. We're blessed with great speakers (who are some of the world's experts on DNSSEC) and we hope to give you a light-hearted session packed full of useful information.

The Speakers

Russ Mundy – Principle Network Scientist, Parsons. Russ is one of the world's true experts on DNS and DNSSEC deployment, working at the forefront of the development and deployment of DNSSEC. Russ is a fount of knowledge on the wide variety of tools and technologies that can be used to get DNSSEC up and running quickly!

Norm Ritchie – Director of DNS Intelligence, CrowdStrike. Norm has worked at several of the world's largest registries, the Internet Systems Consortium (BIND), and is now focused on cyber security within the domain name industry. Norm is the co-founder and chairman of the Secure Domain Foundation.

Dan York – Senior Content Strategist, Internet Society. Dan has been teaching and writing about Internet technologies and security for over 20 years. His focus now is on helping people understand DNSSEC and getting it deployed.
